

THURSDAY, APRIL 6, 1871.

Remember the Odd Fellow's festival.

An addition is being built to the Methodist parsonage.

It is rumored that D. R. Wagstaff, of this city, is to be Register of the U. S. Land Office here.

The county attorney's salary has been reduced by the Commissioners, from \$1,000 to \$800.

Nice fences have lately been built about the residences of Mrs. Wilson, Mr. Sheldon and Mr. Sundstrom.

Wednesday and Thursday of this week, the thermometer stood ninety-one degrees in the shade! Old Sol must have a spite against these parts.

Carpenters are at work fitting the court room with seats, a judge's desk and bar railing for the term of the District Court that convenes on Monday next.

WANTED.—A good farm hand, well versed in all kinds of farm labor, to work for a well-to-do farmer on Gypsum Creek. Enquire at THE JOURNAL office.

Prach orchards have taken on their bloom, and this fact, together with the green wheat fields in the distance, teaches us that the vernal time has come.

Our worthy county commissioner, M. D. Shrum, has opened a blacksmith-shop at Bavaria. He is one of the best men of the Bavarians, and we hope success will attend him.

SPOTTED.—One spotted hunting-dog (pointer). A reward of \$15 is offered for the detection of the thief, and \$5 will be given to the person restoring the dog. Address J. H. Grubl.

I. S. Kallio, Geo. Nible, division supt' of the K. P. R. R., Col. Learned, of Lawrence, and several railroad officials, passed through here on Wednesday, destined for Denver.

We urge the people to turn out generally to the Odd Fellows Festival to-night. A splendid time may be expected. Good music, a good supper and good company will greet you.

J. R. Chapman and J. H. Gibson have formed a partnership as house, sign and carriage painters. Both gentlemen are good artists, and their work looks neat and tasty, and gives general satisfaction.

We know not whether Mr. Snell or Messrs. Phillips and Prescott were instrumental in getting the Government Land Office removed, though we do know that Durhman is offering a large list of farms and lots very cheap.

DIRT CHEAP.—That 640 acres of land with pure running water on each quarter section, bottom and table land, and only six miles from Solomon City, at \$3 per acre. At Durhman's office are such bargains. This is why his office is crowded daily.

CARD.—It is not true, as has been reported by some, that I am no longer to continue in the practice of the law, having been elected Police Judge. I would respectfully inform my friends that I shall still continue to practice in all courts except the Police Court of Salina.

JOHN FOSTER.

We notice that friend Robb, who has recently been visiting his old home in Pennsylvania, has returned, and now smiles benignly over the counters at Tressin's, upon the throng of customers that assemble there daily. Robb adds to the popularity of any institution he sees who connect himself with it.

The following officers were elected on Tuesday: Township trustee, T. J. Goings; Township clerk, C. C. Culp; Township treasurer, Geo. C. Probert; Justices of the Peace, E. L. Norton and C. H. Martin; Constables, M. Stearns and W. M. Clarkson. These are the officers for the coming year of Smoky Hill Township.

"Oh say"—have you, reader, seen the magnificent assortment of furniture at Lotz &amp; Holland's? There is no discount on the stock of this firm. They are without an equal in Western Kansas in cheapness, quantity or style. It is said that they have been selling at cost, lately. If you persist upon being treated well, call at their store.

Mr. J. R. Fisher, the present county clerk of our neighboring county of McPherson, has just been appointed clerk of the District court for that county, by Judge Canfield. Judging from what we know of Mr. Fisher, we are inclined to believe that the selection is a righteous one. Mr. Fisher appears to be an energetic and efficient business man, and a gentleman of the first water.

We are informed by H. J. Wisner, of Lincoln county, that the new town of Lincoln Center is in a flourishing condition. It is within two miles of the geographical center of Lincoln county and already has a thoroughly organized town company. Capt. Henderson, of Salina, is preparing to start a store at that place, and will soon have it in running operation. Messrs. Lowe &amp; Hiller, also of Salina, will open a law office there. A saw-mill is already being built. Shares in lots are selling at \$10 each. Many solid business men of our city have purchased largely of these shares, which is an evidence that Lincoln Center is no chimera.

Dr. Dailey, antiquarian, has brought to our office abumon horse, which has been kicking about the streets for time out of mind. He went through the medical vocabulary trying to explain to us why the bone was human, and his six-syllable and jaw-breaking words made us believe that it must be so. We then commenced thinking whether the animal form that carried that bone belonged to a poet, philosopher, statesman, or a big Injin, having a predilection for the latter. That old codger will have a fine time hunting up his bones on resurrection day, and if he comes across you, Doc, you'll have to shell out, or a writ of Mandamus will lie. Antiquity is personified in that horse. Wonder if it is any connection of the Cardiff giant?

Fine thorough-bred stock is fast being introduced into our country. We visited Donegan's every stable, this week, and viewed with gratification the noble animals stabled there. We noticed the Donegan &amp; Dyer's beautiful racer, Lester Goldust, which took the first premium at Lawrence at the state fair, last year, as a two year old, and the two fair, last year, as a three year old this spring, and sucking colt; also, we spied Bishop &amp; Hussey's famous Lightfoot, of which we have made honorable mention heretofore; also, the same form of Lance, Jr., three years old this spring, and Norman, as fine a specimen of a draught horse as we have ever seen. Thanks to C. L. Hussey Esq., and to Mr. A. C. Dyer, both excellent horsemen, for their kind attentions in pointing out to us the "points" of horse flesh, of which we were woefully ignorant. Saline will make a good showing of horses at the fair, this year.
